

Regina Talamantez

President/CEO – RT Engineering & Associates, Inc

Ms. Talamantez is the founder and principal engineer of RT Engineering & Associates, Inc. (RTEA), a civil engineering firm specializing in program/project management, construction management, environmental and design support services in the transportation industry. RTEA's mission is to better the communities in which we live in by *"Bridging the gap between yesterday's ideas and tomorrow's realities"*.

Ms. Talamantez is a California licensed professional engineer and has over 23 years of experience working within the transportation industry. Regina has her B.S. degree in Civil Engineering from California Polytechnic State University, SLO and is certified in Dispute Resolution Board, mediation, arbitration and serves as a expert witness in construction. Prior to forming her firm, Regina served as Vice President-Project Director for AECOM N.A. Transportation CM/CEI Practice, senior project manager with Alameda Corridor East Construction Authority, engineering services manager for Omnitrans and construction manager for consulting firms. Some of her past projects include: 110/105, 405/5, 5/14, 15/40 freeway interchanges; San Francisco Oakland Bay Bridge; Temple Train Diversion; San Gabriel Trench, Brea Canyon, Nogales, Redondo Junction railroad grade separations.

Regina actively participates in *"paying it forward"* with mentorship and promoting STEM programs such as working with Montebello Unified School District Applied Technology Center, College Bound Today, YWCA-GLA, Adelante Mujer Conference and Engineers Without Borders. Her professional memberships include: SHPE, WTS, CMAA, NLBWA-LA and ASCE.
